

Dear

This Mother's Day, I donated to
As Our Own in honor of you!

You have been an amazing source
of love and strength in my life. In
India, many girls have been robbed
of this vital support system through
exploitation and slavery.

So, I gave a gift to help As Our Own
rescue and raise these young girls in
a Christ-filled home. One day we will
look back and see the tremendous
difference in their lives that came
from this gift.

ABOUT AS OUR OWN

Extreme poverty has stolen much from India's women and girls, placing them at great risk for neglect, exploitation, and enslavement. But these cycles can be broken and a new generation can be forged.

As Our Own rescues girls in India from lives of future bondage. The girls are welcomed into the secure, lifelong As Our Own family where they are loved as daughters—as our own—in every phase of life: schooling, career, marriage and family, and beyond.
